I made one that was 10 inches square once and I scaled up my usual cake recipe (2 eggs, 4oz each of self raising flour, sugar, butter/margarine, 1/2 tsp baking powder (might have left this out, can't remember), 1/2 - 1oz cocoa). The size I went up to was 12 eggs, 24oz flour etc and it took nearly 3 hours to cook. :unsure: - came out nice in the end but if you find a recipe you like I'd try a practice run if you can - good luck ;)
